Over \$500 has been collected in the City of Mexico during the past two months for fines imposed on parents who neglected to send their children to school in compliance with the Mexican law upon the subject. Arizona might learn something even from down-trodden, silver-ridden Mexico.

ANDREW CARNEGIE has established himself in Washington, and states that his purpose in doing so is to actively oppose the expansion policy. He has in this connection become a violent opponent of President McKinley, his opposition having become so marked and even personal as to now cause him to be "non persona grata" at the White House.

A Washington dispatch tells us that the management of the Wabash railroad is arranging for an attempt to smash the long distance speed record of the world in handling the special train of George Gould, the railroad magnate, from Detroit to St. Louis, early this month. The distance is 480 miles. A schedule for 480 minutes is preparing. Main track switches will be spiked down previous to the coming of the special, and all the other trains will be kept off its time, while the track will be carefully patrolled to guard against accidents. The locomotives to be used are mogul compounds, and the officers think the distance can be traveled by them in the eight hours, not counting stops for water and changes.

Tax advices from Paris which reached us yesterday show that so far as Spain is concerned the Philippines are now United States territory. The fact that this country has agreed to pay Spain \$20,000,000 for them has a very close parallel in the course of our country when it acquired New Mexico and California from Mexico. In 1848, at the end of our war with Mexico, that country was prostrate, as Spain is today. We had seized part of New Mexico and California, as we have part of the Philippines this year. The whole of the two localities named were at our mercy, as the whole Philippine archipelago is at this moment. We, however, voluntarily paid to Mexico \$15,000,000 for this territory and assumed debts due by Mexico to our citizens amounting to \$3,000,000. That is, we paid to Mexico \$18,000,000 for the territory comprised in New Mexico and California, in both of which we had a strong footing, and which we could have easily conquered and held, as we could easily complete our conquest of the Philippines now. The similarity between the two instances is striking.

The session of the Twentieth Legislative Assembly of this territory opens six weeks from next Monday. It is the duty of members-elect to, so far as may be possible, inform themselves in advance of the convening of that body, of which they are to be a part, as to what session is necessary and wisest, in reference to the several matters of importance.

to the territory which are to be brought up for the consideration of that body. The question of the Board of Control will probably be one of the first to be brought up. As at present constituted it will certainly be changed. Whether its members should be made elective by geographically divided districts or some other method is for the legislature to determine, and members should go to Phoenix chockfull of information upon the subject enabling them to act intelligently upon it. The Bullion tax we heard here quite a good deal of during the campaign does not seem likely to receive much notice. That proposition if ever intended to be considered seriously, may now be considered dead unless some unforeseen complications should arise. The removal of public institutions and division of counties has already been settled so far as the majority of the democratic members are concerned, since this and other counties in their platforms distinctly pledged their candidates to oppose both. Naturally the question of re-apportionment of members of the Assembly according to registration or population will be called up and should be acted upon since simple justice and common sense demand it. The complete revision of the present statute regulating the sale and redemption of property upon which taxes are allowed to become delinquent, is certainly demanded in the interest of property owners who do pay their taxes. Much may reasonably be expected from the Twentieth Legislature in the way of remedial legislation. It is believed that this legislature is composed, at least very largely, of conscientious and honest men with more or less ability as God may have given it them. The delegation from Cochise county are not at all deficient in either respect, and from them may be expected throughout the session honest and earnest endeavors for the right as they may see it.

From the Lone Star state comes the following letter, written by W. F. Gass, editor of the Mt. Vernon, (Tex.) Herald: "I have used Chamberlain's Colic, Cholera and Diarrhoea Remedy in my family for the past year, and find it the best remedy for colic and diarrhoea that I have ever tried. Its effects are instantaneous and satisfactory, and I cheerfully recommend it, especially for cramp colic and diarrhoea. Indeed, we shall try and keep a bottle of it on our medicine shelf as long as we keep house." For sale by the Bisbee Drug Store.

School Report for November.

EDITOR OF THE ORB:

I take pleasure in submitting herewith report of the Bisbee Public School for the month of November, 1898:

Miss Warring's room—Grades 6, 7 & 8.
Entire enrollment..... 51
Monthly enrollment..... 46
Daily attendance..... 43
Cases tardiness..... 6
Miss Hill's room—Grades 5 and 6.
Entire enrollment..... 70
Monthly enrollment..... 68

Daily attendance..... 82
Cases tardiness..... 65
Summary of School.
Total enrollment..... 436
Monthly enrollment..... 397
Daily attendance..... 380
Cases tardiness..... 137

The month of November shows an enrollment of seventeen new pupils. Though there has been quite an amount of sickness, and much irregularity of attendance, yet the average attendance stands 130 to 143 for last month.

The percentage of attendance is 94, and the absence record has increased to 457 1/2 days.

The tardy record of 137 is the worst so far. Each of the primary rooms shows a marked increase over last month. The help of parents is earnestly solicited to assist in breaking up this useless and harmful habit.

The average attendance for the past three months is 326, much the largest in the history of the school. Each month shows a gain of pupils, and so far but little loss. How to seat all the pupils is already a problem in two of the rooms. All the seats are already filled. With 400 different children in the little space left for a school yard, the problem of more room in which to play is becoming as pressing as more room to sit and recite in. No school can be governed easily or well which has insufficient play grounds. Cities acquire ground for such use even at great cost. More ground for a school yard can hardly be acquired here at a reasonable cost; but what is left can be so improved as to nearly double its size. The great ravine bounding the school yard could be filled up and a yard of fair size would be the result. Parents will say that will cost money! Certainly it will; and so does everything of real value. If each parent would subscribe the price of one day's work this great improvement can probably be made at once.

We hope some enterprising parent will start this forward movement, which has been waiting for some time for a leader. As the people have made no

improvements on the school ground is so far, why not undertake this necessary work, which, when completed, will materially contribute to the health and well-being of the children and the general improvement of the school.
Respectfully Submitted
S. P. McCREA,
Prin. Public School.

From Monday's Daily.

Miss Ida Morfoot left on last night's special for her home in California.

Hon. B. A. Packard is in town, but suffering from such a severe cold that he confines himself indoors quite closely.

Mrs. J. L. Boston and Mrs. A. E. Downs were among the many ladies noted at the theater last evening.

Concepcion de Friga aged 47, wife of Carlos de Friga, died of pneumonia on Saturday night and was buried this afternoon.

"Big foot" Martin arrived in Bisbee yesterday to take charge of the "Hard Luck" department of Dan Hankins' business. Mr. Martin is said to possess special qualifications for the position.

George K. Roskrage, of Tucson, surveyor-general under the Cleveland regime, and one of the best known and most generally liked men in our territory, as well as one of its oldest citizens, came in on the evening train. He comes on business with the Copper Queen Co. in his professional capacity as a surveyor.

Ten carloads of fat cattle will probably be shipped from Don Luis station tomorrow for the Los Angeles market. These cattle are to be shipped by Messrs. Packard & Vickers from their Turkey Track herd in Sonora. Future shipments which will follow regularly from the same herd at intervals of five or six days will doubtless be made from Naco.

Dan Hankins having noticed in THE ORB the statement that he was sick and with the grip, and realizing that his many friends were laughing because of the loss of his society, and that THE ORB was totally in error in ascribing to him such a plebeian ailment as the grip when the doctor had told him he had the tonsillitis, he got out of bed and went to his place of business. This morning he was around with his wheels, but they were not in his head, by the way.

Richard Fallon, for some months past a barkeeper at the Astor house, received a telegram announcing that his brother was dangerously ill at Hollister, Cal., and Mr. Fallon and his wife took the afternoon train for that place. Two years ago yesterday one of the brothers died, one year ago yesterday another one died, and on receipt of the telegram yesterday Mr. Fallon was so certain that the third brother would die on the same anniversary that he at once telegraphed to have the body held until his arrival, and started to Hollister.

From Tuesday's Daily.

This is not a good town for "bobos," W. C. Greene arrived on the afternoon train.

Lewis Williams was about today enjoying the glorious sunshine. Miss Mamie Hanley came in from Benson this afternoon, because of the illness of her mother.

Our friend Joers remarked on the street this morning: "This is a bad day for the rheumatism, but a good day for those who have it."

Bisbee is not seeking advertisement as a health resort but THE ORB may state the fact that this is a most delightful day.

The rebuilding of Overlock Bros' place of business will not in any way stop their regular daily business. Customers will receive courteous and prompt attention as usual.

The performance tonight at the Opera House will doubtless be largely attended. The play is one that has always been a most interesting one since its first production, and the troupe to appear tonight come highly recommended.

The twentieth general assembly of this territory will assemble on January 16, 1899, the statute providing that the legislature shall convene on the third Monday in January of each alternate year.

Charles Collins, at one time manager of the Aztec mine, near Elizabethtown, New Mexico, and who came to Bisbee after a "hold up" on the Denver & Gulf railroad, and was here arrested on the charge of being one of the robbers, is now on trial at Los Vegas for the crime. His wife and child are in Los Vegas.

Reference was made a few days ago in the ORB to an occurrence in which a clerk named Rollins was said to have figured, and Mr. Detloff, one of our most respected citizens, was mentioned as having opened some drawers in a room of his residence occupied by Rollins. THE ORB was in error. Mr. Detloff did not open the drawers, that was done by an employee of the store from which the property was taken.

Robt. W. Barr returned today after an absence of eleven days. He only intended to go to La Morita and to be absent not more than three days, but he took with him the three cakes he won at the Catholic Fair, and he merely left town to satisfy his well known fondness for cake. He found he had overestimated his cake-devouring capacity and

was forced to continue his journey as far as Placitas. When he came in, however, he looked quite able to devour more cake and to add other nutriment, both solid and liquid.

Rev. J. G. Pritchard returned from Phoenix yesterday afternoon, having attended there a meeting of the Arizona Presbytery, which included the installation of Rev. McAfee as pastor of the Presbyterian church at Phoenix, and also the ordination of Rev. Logie, who is to be installed as pastor at Flagstaff. Rev. Logie is deemed a valuable acquisition to the church in Arizona. He is a graduate of the university at Toronto, Canada, and has devoted ten years of his life to collegiate and university study and instruction. He has from those institutions of learning received the degrees of B. A., M. A. and B. D.

A. Bauer this morning started four men with tools and supplies to the group of mining claims owned by himself and brother, in the Dragoon mountains, about twenty five miles north of Bisbee, and near Antelope spring. These claims have some years been held by the Messrs. Bauer, but although gold, silver and copper, in valuable quantities exist, no large amount of development has been done. However, depth of from fifty to sixty feet has been reached at several points. It is now the intention of the owners to prosecute development upon the group continuously. Samples of the ore from this property have been seen by the ORB man, and they certainly indicate a high percentage of copper, and also gold in considerable quantities with a very good percentage of silver.

The services held last evening at Library Hall and conducted by Rev. J. G. Pritchard, were of a patriotic nature and intended to further the project of the erection of a national monument to the memory of our soldiers and sailors whose lives were sacrificed during the late war. There was only a fair attendance although it was hoped the announcement of the object would have secured a much greater one. It is somewhat unfortunate that the attractive song service at the upper hall of the opera house could not been held on some other evening, or these services arranged to not conflict with it. May it not be hoped that some public action will be taken here that will result in a material addition to the fund being raised throughout the country for the purpose referred to, since a personal application in this cause will surely meet with very few refusals from American citizens.

To Whom It May Concern.
Notice is hereby given that my wife, Martha Androvich, having left my home and board, I will in no wise be responsible for any debts contracted by her.
Dated at Bisbee, Oct. 24th, 1898.

FOR SALE—For \$650—house and lot. Three rooms, 12x12 and kitchen, 8x8. 1 closet in each room; ground graded enough to erect another three room house.
